

# HST done on night one

Alice NightOne home sleep testing solution

**PHILIPS**  
  
**RESPIRONICS**

Designed to provide it all—  
ease, confidence, and reliability

Device shown actual size

## Alice NightOne home sleep testing solution

**Alice NightOne** is an easy-to-use home sleep testing (HST) device designed to help patients get the study done right the first night. In fact, **Alice NightOne** is easier for patients to use than leading competitor HST devices.\*

\*Results of customer preference trial; data on file.

# Alice NightOne supports your business, clinical, and patient needs

Supports your business and clinical needs

**Gold standard sensor set:**

the same sensor technology recommended by the AASM for in-lab studies

**Signals your techs are familiar with:**

no need to retrain

**Enhanced Good Study Indicator:**

know the data is there before the device is returned

**Powered by Sleepware G3 software:**

use the same software for in-lab and out-of-lab testing

**Optional Cloud Services:**

spread your services; unify your data

**Wireless connection:**

to Bluetooth-enabled Philips Respironics' PAP devices

**RIP with integrated buckle design:**

eliminates external wire sets

Patients are more than twice as likely to have a successful study than with leading competitive home sleep testing devices.\*

\*Results of customer preference trial; data on file.

Keep it simple for patients

**“Auto-on” feature:**

recording starts as soon as device is buckled

**“Smart guide” sequence:**

easily guides setup and indicates signal quality

**Helpful visual aids:**

tutorial video; step-by-step diagram
